Experience

KBMDSI FILKOM UB

9 months

Head of Public Relations Synergy Of Symphony 2024

July 2024 - Present (5 months)

Synergy of Symphony is an event that aims to introduce the Information System department to new students. This work program is under the auspices of the Human Resource Development Department. Synergy of Symphony consists of several series that are carried out for several months to train the discipline and time management skills of the new students as well as the focus of career development.

Expert Staff of Human Resource Development

March 2024 - September 2024 (7 months)

Malang, East Java, Indonesia

KBMDSI stands for Keluarga Besar Mahasiswa Departemen Informasi. This is an autonomous organization within the Computer Science Faculty at Brawijaya University. I stand on Human Resource Development. HRD is responsible for developing students through training, skill enhancement, and career development programs. Its focus is on improving qualifications, performance, and student satisfaction, thereby supporting the company's growth and long-term goals.

Head of Public Relations IT FEST 2024

April 2024 - July 2024 (4 months)

IT FEST is a work program from the Department of Science and Teaching where this work program is a collaboration between the Department of Science and Teaching and Human Resource Development. IT FEST is a work program that is engaged in various competitions such as UI UX and Business Case. The IT FEST competition is a national scale competition attended by approximately 100 participants. I am in the position of Head of Public Relations Division where I work to contact participants, provide information related to IT FEST and provide job descriptions to my staff for this work program. This work program was successfully implemented well and received good feedback from the participants who participated in it.

Head of Event Division Bootcamp ASCEND 2024

March 2024 - June 2024 (4 months)

ASCEND stands for Academy for Skill Cultivation & Education in Next Gen Development, this work program is from Human Resource Development that focuses on training. In this ascend committee there are several hard skill bootcamps such as Data Science, Product Manager, Game Development, Front end, and Back End developer. so ASCEND accommodates Computer Science Faculty students to practice and develop deeper skills in these fields. I am the head of the event division. This ascend has several series where there is training and assessment that will be assessed by a jury of lecturers later. I am in the position of head of the event division tasked with making a rundown and organizing the job descriptions of my staff and also organizing the concept of the event. and this event can run successfully with teamwork
